An Army of Them Invaded Parley's Canyon Last Night.

At about 10 o'clock last night hundreds of young men and boys left the city for Parley's canyon in order to be upon the ground to cast a line as soon as the hour of midnight had passed. eral passenger agent, D. E. Roberts, has Scofield sufferers in a lump sum, rather given formal notice that because of violations of the joint passenger agree ment by other lines it considers itself absolved from observance of the compact. This trouble has been brewing for some time, and it reached the critical stage at the recent meeting of the joint passenger committee in New York. At that meeting the Erie and other differential lines demanded that the excess fare rule which is applied to west. bound trains in trunk line territory also be applied to east-bound trains running between Chicago and New York. but the demand was objected to by the general passenger agents of the West-ern connections of the trunk line roads. This rule directs that an excess fare at the rate of \$1 an hour be charged on all trains making the run from New York to Chicago in less than 228 hours, Among railroad men the opinion is expressed that passenger rates are now adjustment could be entertained before

Building New Towns.

New towns are to spring up along the big railroad lines in the West. They will give a new aspect to the maps Six of the largest lines in the West with a combined capital of many tens of millions, are going to found com-munities, selling land, platting parks and building residences. The roads interested are the Santa Fe, the Chicago & Northwestern, the Northern Pacific, the Burlington, the St. Paul, the Chicago & Eastern Illinois.

These roads, it is stated on the authority of a railroad official who has just returned from New York, will build towns within the next eighteen months or two years in Okiahoma, Ne-braska, Wyoming, Colorado, Oregon, Iowa, New Mexico, Kansas, Wisconsin, the Dakotas and Idaho,

The Union Pacific is also doing something of the same nature and may join the other six, especially as the western is in the combination. The re organized Central branch of the Union Pacific railway has bought in the 18,000 acres of land in Atchison, Brown, Marshall and Nemaha counties, Kansas, and in Pawnee county, Nebraska, offered for sale by the receivers of the original Central branch of the Union cific, for amounts aggregating \$25,000 No money was paid out, as the reor ganized Central branch is a heavy creditor of the former organization. It is very possible one or two of the towns will be located on this ground.

SATURDAY'S "NEWS."

Saturday's "News" will be a literary gem.
